

TUTIANI

QUALITY ASSURANCE ENGINEER

Bekasi, Greater Jakarta, ID | tiany7597@gmail.com | +62 857-1050-3103 |
linkedin.com/in/tutiani | github.com/tutiani

PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance Engineer with 1+ years of experience in manual and automation testing. Proficient in testing web, mobile, and API validation. Highly competent in Cypress, Postman, and expanding expertise in Playwright and Selenium. Proven experience in Agile sprint environments, ensuring strict adherence to system performance targets (SLA) and documentation standards (SIT/UAT scripts).

CORE COMPETENCIES & TOOLKIT

Automation Testing:	Cypress, Playwright (Exploring), Selenium WebDriver (Exploring), Robot Framework
API & Database Testing:	Postman (API Validation Workflows), Newman, PostgreSQL
Performance Testing:	k6 Load Testing (Load Curves, SLA threshold validation)
Manual & Mobile Testing:	Test Case & Scenario Design, Android & iOS UI/UX Validation, Regression Testing
Tools & Methodologies:	Jira, Git/GitHub, Agile/Scrum, SIT & UAT reporting, DRE calculations

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer

OttoDigital • Jakarta Selatan, Indonesia

Jan 2023 - Present

- Designed and executed manual/automated test cases for web and mobile UI/UX functionality and responsiveness.
- Developed and maintained regression test scripts using **Cypress**, reducing regression execution cycles.
- Conducted thorough REST API integration tests using **Postman**, checking request/response schemas and transaction payloads.
- Collaborated closely in Agile sprint teams with Product Managers and Developers to review and refine system criteria.
- Drafted comprehensive QA documentation, including SIT/UAT scripts, test execution matrices, and defect summary reports.

Virtual Internship - Quality Assurance

Evermos • Bandung, Indonesia

Apr 2023 - May 2023

- Created API integration testing scenarios and verified multi-endpoint response logic.
- Conducted performance tests simulating **1000 virtual users (VU)** and **3500 iterations** to test API limits under load.
- Validated response latencies against strict 2.0-second corporate SLA thresholds.
- Generated visual performance logs and execution summaries using **k6** dashboard tools.

Assistant Information Systems Laboratory

Gunadarma University • Kota Bekasi, Indonesia

Mar 2020 - Sep 2022

- Set up lab database servers and connections before practical classes.
- Evaluated and graded student system implementations, providing reports on logic errors.
- Assisted students with debugging SQL database queries and resolving algorithm difficulties.

EDUCATION & CREDENTIALS

Bachelor of Information Systems	Gunadarma University • Depok, Indonesia	GPA: 3.68/4.00 (Sep 2018 - Sep 2022)
QA Engineer Certificate	Binar Academy • Jakarta, Indonesia	Score: 95.90/100.00 (Mar 2023 - Apr 2023)
